# Jeferson Mejicanos

Front-end Developer

## ABOUT ME

Front-end developer junior. I like to design and develop interfaces for users that feel easy and comfortable to use with an attractive design and efficient performance. I aspire to work on challenging projects that have a positive impact on people.

## EDUCATION

- Platzi — Definitive HTML and CSS Course, 23 / 08 / 2021

In this course I learned how to structure a web page, how to optimize images, work with forms, CSS selectors, inheritance in CSS, specificity, position, display, responsive design.

- Platzi — Frontend Developer Course, 6 / 10 / 2021

In this course I understood how a render engine works, I learned about the box model in CSS, margin collapse, about CSS, flexbox and CSS grid architectures.

- Platzi — JavaScript Practice Courses, 25 / 08 / 2022

In this course I learned about variables, functions, conditionals, cycles, arrays, objects, manipulating the DOM, listening to events, contributing to existing projects and deploying projects with GitHub Pages.

- Platzi — English Course For Developers, 20 / 10 / 2022

In this course I learned how to pronounce the name of many technologies, the name of team in a company, most commonly used terms in industry and a casualty conversation at work.
